PROFILE

Investor-side analyst and operator with 15+ years in capital-intensive, technology-led businesses across controlled-environment cultivation, lighting, automation and climate systems. I build the investment case from the operating drivers up (unit economics, CapEx and OpEx, scenarios, risks), run technical due diligence, and present the result to boards and investors.

I have contributed to funding rounds from seed to Series D, experienced an exit as a founder, and worked as an analyst on agritech investments for family-office investors, with first-hand exposure to the agritech investor base (S2G Investments, AgFunder, Cofra). I build AI-assisted models, due diligence checklists and dashboards, with every assumption sourced and checked against primary data. Seeking a hands-on investment analyst or due diligence role in agrifood, controlled environment agriculture or industrial technology.

KEY RESULTS

€50M

IGS Series B, valuation €200M+ (contributed)

€200M

Infarm Series D, valuation €1B+ (contributed)

€1M + €9M

OneFarm seed and Series A, valuations €5M+ and €36M+

14 months

Spectron: founding to acquisition (exit)

-40% / -15%

product OpEx / CapEx per m² (IGS)

~60%

global cost reduction, with the CFO, COO and CPO (Lumatek Group)

INVESTMENT HIGHLIGHTS

Agritech investors

Analyst on agritech investments for family-office investors (clients under NDA): technical and commercial due diligence, investment cases and market analysis. IGS investor base includes S2G Investments and AgFunder (Series A) and Cofra's Sustainable Food Group (Series C, 2024).

APTA Advisory (2026)

Independent due diligence firm: CapEx and OpEx due diligence for buyers of technical systems; investment cases, unit economics and value creation for boards and investors.

IGS, Series B (€50M)

Contributed to the round (valuation €200M+); opened two revenue streams worth €20M+; cut product OpEx by up to 40% and CapEx per m² by up to 15%.

Infarm, Series D (€200M)

Contributed to the round (valuation €1B+); delivered -83% labour cost and -40% energy cost per unit, +73% output per m².

OneFarm, seed and Series A

Co-founder and CTO: €1M seed (valuation €5M+); supported the €9M Series A (valuation €36M+).

Exits and shareholdings

Founder of Spectron Light Science, acquired 14 months after founding. Minority shareholder in Valoya from joining; contributed to growth from €0 to €10M+ in revenue.

Technical due diligence (2024-2026)

Independent consultant: due diligence on companies, products and platforms for investment and acquisition decisions; value-creation frameworks and KPI benchmarks.

PROFESSIONAL EXPERIENCE

Managing Partner · APTA Advisory

Aug 2026 - Present · Lisbon

Independent due diligence and business strategy firm.

- Lead the firm and its service model: CapEx and OpEx due diligence for buyers of technical systems (lighting, climate and automation); strategy for suppliers
- Advise boards, investors and operations teams on investment cases, supplier selection, unit economics and value creation; own go-to-market, pricing and partnerships
- Designed an outcome-linked fee model (share of verified savings, or fixed fee)

co-CEO and Commercial and Marketing Director (interim) · Lumatek Group

Dec 2024 - Jul 2026 · Lisbon

Industrial manufacturer of technical lighting systems (HID and LED), 20 years in market, two brands (Lumatek and Photontek), international distribution.

- Led a full commercial and cultural restructuring: resized teams, closed unprofitable markets, opened new geographies and channels
- Cut about 60% of global costs through a cost-reduction strategy, with the CFO, COO and CPO
- Grew a key segment 210% in 2025 and reached, in Q1 2026, a pace 4x that of 2025
- Turned the organisation into a data-driven company and removed internal silos, enabling data-driven decisions

VP Business Development & Head of AgriTech Partnerships · IGS

Aug 2021 - Jul 2024 · Edinburgh and Amsterdam

Award-winning industrial technology company: automation, IoT and environmental control systems, six patent families.

- Opened two new revenue streams generating €20M+
- Reduced product OpEx by up to 40% and CapEx per m² by up to 15%
- Closed partnerships with Schneider Electric, Viscon Group, Microsoft, Plant Lighting and Wageningen University & Research
- Built and led the business development team, reporting to the CEO and COO

Director of Farm Hardware · Infarm

Mar 2020 - Mar 2021 · Berlin

European industrial scale-up of modular controlled-environment production systems, with an installed equipment base across several countries.

- Grew the technical team from about 40 to 100 people in one year
- Cut labour cost per unit by 83% through automation and new process flows
- Reduced energy cost per unit by 40% through a new HVAC design and rent cost per m² by 61%; raised output per m² by 73%

Founder and executive roles, five companies

Jun 2016 - Jan 2020 · Amsterdam

- Founder and CEO, Spectron Light Science (Nov 2016 - Dec 2017): three LED lighting product lines; company acquired by a leading sector player 14 months after founding
- Founder and CTO, OneFarm BV (Jan 2017 - Jan 2020): €1M seed (valuation €5M+); supported the €9M Series A (valuation €36M+)
- Founder and CEO, BemStudio (Jun 2016 - May 2020): engineering and management consultancy in the Netherlands

Director of Business Development · Valoya

Jun 2011 - May 2016 · Helsinki and NL

Manufacturer of technical LED lighting systems. Three roles in five years: Technical Manager, Solution Manager, Director of Business Development. Joined as a minority shareholder.

- Closed the company's first commercial contract, above €300,000; grew revenue from €0 to €10M+
- Expanded to more than 50 countries in Europe, Southeast Asia, Japan and North America; opened the Amsterdam office

Researcher · Aalto University

Apr 2009 - May 2011 · Helsinki

Solid-state lighting. Projects SSHLighting (2009-2011) and LEDFlowers (2008-2011).

CORE SKILLS

Investment analysis

- Financial modelling
- Business cases and unit economics
- Scenario and sensitivity analysis
- DCF and comparable valuation support
- CapEx and OpEx modelling
- Cultivation economics (energy, CapEx per m², labour, yield)
- Technical and commercial due diligence
- Market research and sector trends

Capital markets exposure

- Seed, Series A, B, C and D rounds
- Investor materials and board reporting
- Shareholder and exit experience

Industry

- Agrifood and ag-tech innovation
- Controlled-environment cultivation
- Industrial automation
- Climate and energy systems
- Technical lighting
- Regulated-sector operations

Tools and AI

- Generative AI (Claude, ChatGPT, Perplexity)
- Tableau
- Jira and Asana
- Microsoft 365
- Google Workspace

EDUCATION

M.Sc. (Tech.) Electrical Engineering

Specialisation in Lighting and Electrical Installations in Buildings, Aalto University, Finland (2010-2012)

M.Sc. minor, International Design Business Management

Aalto University (2011-2012)

BSc in Electromechanical Engineering

Universidade da Beira Interior (2004-2009). Erasmus at TKK, now Aalto (2009)

CERTIFICATIONS

- Leading SAFe and Agile for Hardware (Gladwell Academy)
- Flight Levels (Flight Levels Academy)

- Product Development Project (Design Factory, Aalto)
- Mental Health First Aider (Worksafe UK)

PUBLICATIONS

- Co-author, Advances in Plant Factories (Burleigh Dodds Science Publishing, 2023)
- Member, International Society for Horticultural Science (ISHS)
